

Greenford High School is pleased to report another outstanding set of A level and BTEC results with 20% of all grades at A/A\* and 43% of all grades at A\*-B. Almost ¾ of grades were achieved at Grade A\*-C and a third of all students achieved an A grade in at least one of their subjects. This is an excellent achievement in any year, but we are particularly proud of these results given that the students sitting the examinations were sitting their first public examinations, as a result of the Covid disruption 2 years ago. In BTEC, students have also achieved superb results with 76% achieving Distinction+.

Whilst all of our students have done exceptionally well, there have been some notable achievements by Nithushaan Jeyakumar and Banshi Patel who both gained 3 A\*s. Nithushaan has accepted an offer to study Economics at Warwick University whilst Banshi intends to take a gap year prior to applying to study medicine next year. Maisah Kabir, Jenusiya Jeyaseelan and Priya Nayyar all gained 2 A\*s and an A. Maisah and Jenusiya are both heading off to Oxford University to study Medicine and Biochemistry, respectively. Priya has succeeded in securing a place to study law at Queen Mary University. Sumaiya Butt, Mominah Ansar, Alvin Gurung, Kowsar Mohamed, Jagveer Sunner, Maria Lightfoot-Boston, Thisha Sivakumar, Arkhash Thiruchelvam and Zaid Munir all achieved at least one A\* grade and will also be getting ready to start at a range of prestigious universities. By securing a place at Imperial next year, Sumaiya Butt will be joining Maisah in studying medicine. Zoe Gordon achieved 3 A grades and will be taking up her offered place to study medicine at Oxford University, along with Antwone Andrews who will also be attending Oxford University to study Law, having achieved A, A, B.

For those taking a purely BTEC route, outstanding results were obtained by Serena Dhande, Miya Hendricks, Danny Islam, Jason Panesar, Silvia Talwar and Mounika Thambithurai who all obtained either D\*D\*D\* or D\*D\*D.

We are particularly excited that, once again, one of our students - Kanika Poonia - has successfully received a scholarship to study at the prestigious University of Toronto in Canada.

Headteacher, Mia Pye, said "Students sitting their examinations in 2023 have faced enormous difficulties over the last few years and have sat their first public examinations this year, as a result of not being able to sit examinations for their GCSEs 2 years ago. Once again, however, Greenford High School students have achieved exceptional results. I am immensely proud of each and every student for all of their hard work and focus throughout their 2 years of study at Post 16."

Greenford High School wishes all of our Post 16 students the very best in the next stage of their education.
